

Project 1

Due Date: 6/27/2017 @ 10:00AM

The goal of this project is to improve student understanding of the IPCs. Write two programs on one machine to chat each other.

No language limit. C++, Java, C# all can be used to implement the same machine chat.

Below is an example.

<p>Program 1 display</p> <p>Program 1 Type> Hello</p> <p>Program 2> Hi</p> <p>Program 1 Type> This is Bob</p> <p>Program 2> This is Mike</p>	<p>Program 2 display</p> <p>Program 1> Hello</p> <p>Program 2 Type> Hi</p> <p>Program 1 > This is Bob</p> <p>Program 2 Type> This is Mike</p>
